

The World's Highest Performing Gyro Stabiliser is here!

ARG Australia is the Australian distributor for the Tohmei Anti Rolling Gyro (ARG). The ARG is the most effective gyro stabilisation for the comfort and safety of you, your crew and your guests on board your vessel with no violent rolls from dangerous wakes hitting you. ARG gyros are known to suppress roll, reduce seasickness, reduce fatigue, and increase safety at sea. Offering you a life of ownership experience that is second to none, with unmatched reliability, simple installation and operation.

- The Tohmei Anti Rolling Gyro (ARG) is simply the most effective Gyro stabilisation for the comfort and safety of those onboard your vessel, both at anchor and underway.
- With no exposed moving parts, and no through-hull fitting, ARG is a one-piece 'bolt on' package that is simple to install and operate, making it the most convenient on the market.
- Easy Operations - Simply turn it on when you step onboard your vessel and turn it off when you leave.
- ARG has the lowest maintenance in the industry, making it the most reliable.
- Manufactured to commercial and military standards by Mitsubishi for over 20 years, this Japanese engineering triumph offers an unmatched warranty.
